

Current established Colonies:

Japan Established:

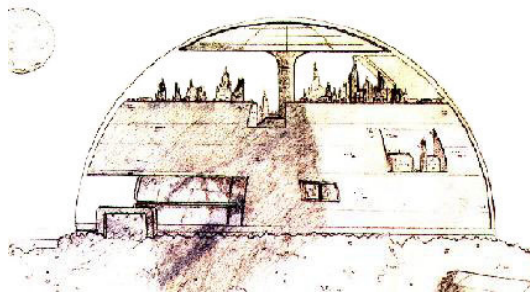

- (**Uchu** = Japanese for Space, Cosmos), Cold and mountain, planet has 3 cities, which are all in protected domes
(Export = Defense Technology)
- (**Nozomi** = Japanese for Hope) Earth like with 25% water and mostly plains, 1 city surrounded by farms and farmland
(Export = Corn, Beans, and various Spices)
- (**Takara** = Japanese for Treasure) Small Mountainous Planet, very little landmass, 95% water, tall mountains. 1 city in mountains above clouds
(Export = small Ship manufacturing plants and testing grounds)

US Established:

- (**Draconis** = Latin for Dragon) Earth type Planet, 65% water, single City surrounded by small towns and Farms, only large Docking station/port in orbit in colonies
(Export = Average Technology advances, Capital of Draconis Empire)
- (**Non Decarsus** = Latin for No Charge/Tax) Very small Earth Type planet, Small town with no true port surrounded by 100s of miles of farms and farmland
(Export = various crops depending on season)
- (**Nova Domus** = Latin for New Home) Large city type station located in asteroid that orbits a gas giant.
(Export = Offensive/Defensive Technology)
- (**Latium** = Latin for Wide Land) Earth type planet, two small towns surrounded by 100s of miles of farmland
(Export = various crops depending on season (seasons oppose Non Decarsus))
- (**Gelidus Infernus** = Latin for Freezing Hell) Small Ice Planet, single domed city on Equator where temperature is -30 on any average day
(Export = Slipstream Technology, Life Support Technology)
- (**Viridis Pulcher** = Latin for Green Beauty) Small Earth type Planet, Major city Surrounded by towns and few farms
(Export = Entertainment, Tourist Attraction)

Russian Established:

- (**Doma** = Russian for Home) City/Port on small moon in orbit around volcanic Planet
(Export = Weapons Technology, Diamonds)

- (**Svaboda** = Russian for Freedom) Small Desert Planet, 15% water. Large City
(Export = Computer Technology, Small ship manufacturing)
- (**Novoya Mir** = Russian for New World) Earth type planet, Large city/port surrounded by farmland
(Export = Various Crops depending on season, Sensor and Shield Technologies)
- (**Mimy Zhanic** = Russian for Peaceful Knowledge) Small Mountainous planet with monastery and village
(Export = Wine and minor food stuffs exclusive to planet)
- (**Khlebodarnoye** = Russian for Gifted with Grain) Small planet with plains and temperate climate, Small town/port surrounded by farmland
(Export = Various crops depending on season)

Chinese Established:

- **Vega** = Small Mars type planet with cold climate and barely breathable atmosphere. Colony is in crater and open to outside. Machines keep rich oxygen in the colony.
(Export = Life support technology, defense Technology)
